

Reporting Services

REPORTING & ANALYTICS

SYSPRO Reporting Services (SRS) provides high-quality financial and operational reports and documents, together with visual analysis capabilities. The flexibility of SRS means that reports can be designed for almost any requirement. In addition, as the reports are version-independent, they are unaffected during system upgrades.

Document Services in SYSPRO Reporting Services

By converting the Document Services to SRS, documents such as invoices and order delivery notes can be archived, retrieved and searched using SYSPRO Reporting Services architecture, and can be scheduled to automate batch printing of documents. In addition documents can be printed to more than one device.

General Ledger Financial Report Writer in SYSPRO Reporting Services

The SYSPRO 6.1 conversion of General Ledger Financial Report Writer to SRS enables significantly easier and quicker creation of reports. It comes with greater flexibility, including hyperlinking to other documentation and extensive customization tools for tailoring the presentation of reports.

Workflow Reporting in SYSPRO Reporting Services

Reporting for SYSPRO Workflow Services allows you to easily create and design workflow instance, workflow instance detail and generic workflow reports.

The Benefits of Reporting Services

- Rapid, secure access to enterprise information
- The power of Crystal Report functionality for standard and user-defined reports
- Boardroom-quality reporting through the flexibility to design reports to almost any requirement
- Dynamic chart and analysis capabilities
